

THE CENTRAL RECORD

LANCASTER, KY., THURSDAY, JULY 10, 1902.

NUMBER 1

Items of Local Interest.

The mad dog scare didn't last long. Nearly all the wheat has been harvested.

Its next week — Richmond Elks Fair.

Drilling has begun. Now stop croaking.

The sound of the drill is sad company to the croaker.

Not a drunk in town the 4th. Oh, "patriotism," where art thou?

The City Council met Monday evening and transacted some minor business.

Two more communications bearing no names were received this week. Want you ever learn?

Col. Billy Burton is having some of his fine horses docked, the work being done by an experienced hand from Richmond.

This office has just turned out a big lot of checks, notes, etc., for the Peoples Bank, at Paint Lick, and we defy any shop to do a better job.

Another \$1.50 excursion to Cincinnati Sunday. You have all day in the city, and there are many attractions. Train leaves Lancaster at 3:44 a. m.

The wheat crop is turning out much better than was expected. There's always a cry of "short crop," but somehow it comes out all right after all.

Its strange, but nevertheless true, that all adverse criticism of a newspaper comes from the skinflints who send over and borrow their neighbor's paper.

Holding For \$1.
Wheat is being cut and most of it is being stored, the farmers believing they will get a dollar later on. Marksbury & Son, tell us they are storing large quantities, and most of their warehouse will be taken up this way.

More Tally for Record.
Louisville Times: Editor Louis Landram has put a new head on the CENTRAL RECORD, which considerably improves the appearance of his excellent paper. He has also bought a large quantity of new type. Recently he installed a fine new Gordon job press. The Lancaster writer is a hustler.

Cynthiana Democrat: The CENTRAL RECORD, Lancaster, has a brand new head, but the old head of its editor, though somewhat battered and fly-specked, is as good as new.

Well, good people, remember the big Elks Fair and Carnival at Richmond all next week.

Walloped 'Em.
The Williamsburg base ball team defeated the Lancaster boys 9 to 8, Saturday. The visiting boys put up a rattling good game.

Accepted Call.
Elder Holton O. Frank, of Lexington, has accepted the call of the Somerset Christian church of Montgomery county. He is a graduate from Kentucky University and is not yet twenty years of age.

Thanks, Mack.
Mr. Louis Landram, of Lancaster, is in Danville yesterday. He is the editor and proprietor of the Lancaster RECORD and has recently equipped his office with some splendid new machinery. He is one of the brightest editorial writers in Kentucky.

Well Fixed.
Alex Miller is well supplied with hacks, having two of the best horseabouts. He meets all trains, and if you will call up No. 122, he will call for you at any time, day or night. His closed carriage is nice and comfortable, and rates are way down low.

Deserving Young Men.
As stated last issue, Messrs. Theo. Currey, Jr., and R. L. Davidson have purchased and taken charge of the T. Currey store. These young men are energetic, pushing gentlemen, who deserve encouragement. THE RECORD bespeaks for them a liberal share of patronage. They are natural hustlers and will succeed.

Old Colored Soldiers Happy.
Capt. W. H. Harris, the well-known show and picnic man, together with Dan Hogue, John Floyd and Geo. Leavell, gave a picnic Friday, to which all the old colored soldiers were invited, and given a big dinner, free of charge. About sixty were fed, and they were a happy set of old fellows. The Camp Nelson band made fine music.

Drilling Begins.
Mr. J. W. Algoe, of the Artesian Well Supply Co., Providence, R. I., arrived Saturday to begin work on the artesian well, which is to supply the town with water. The machinery arrived Monday, and, judging from the size of the ponderous drill, he will soon do what that fellow at Stanford said, "Hit water, h—l or China, in a very short time. He is very sanguine of success, and says it will not take long to find a stream that will fill the contract. If he succeeds, he is to receive two thousand dollars, but unless water is found in certain quantities, he gets nothing.

The biggest thing on wheels,—the Richmond Elks Fair and Carnival all next week.

Men Wanted.
One of the road masters of this division of the L. and N. told us the company had much trouble in securing labor during the hot weather. He said they frequently had to send out and hunt laborers. The company pays well, but Rastus is not there in summer.

Everybody Getting Them.
The telephone has grown in popularity until now almost everybody has a phone in their house, and you can talk to any part of the county. The advantages of an instrument are so many, that it would be folly to attempt to mention them. The service in this county is the best in Kentucky and far the cheapest.

Try It Here.
Squire James F. Barkley had warrants issued one day last week against fourteen negroes for loitering on the streets of Nicholasville. Judge Crutcher fined each of them from \$1 to \$10. The city and county officials are determined to break up the practice which has always been a great nuisance.—Jessamine Journal.

Guess He's Lost.
"Wonder what's become of Daws?" is heard almost every day, the reference being to our good old friend, M. D. Hughes, who went west a few weeks ago to grow up with the country, or let the country grow up with him, we don't know which. It does look like he should remember THE RECORD with a letter.

Not In Hot Weather.
During the Spring, many colored men left Lancaster and went to work on the K. C. railroad, near Covington. As soon as this spell of hot weather set in, they began to sneak back, until almost every one is back lounging about the "Chute." Most of these men work well in winter, but the sun takes the temper out of them.

Ball.
After a lingering illness, Mr. Henry Ball died at his home near town last Friday. The deceased was a farmer, and a widely-known man. He was related to many families all over the country. He was an honest, straightforward man in his dealings, liberal hearted and honest. After appropriate services, the remains were buried at the Lancaster Cemetery.

A Good Trick.
E. W. Arnold and Geo. T. Arnold have invented a fastening to hold traces on the single trees of buggies which bids fair to make them some money. It consists of a wire spring, so arranged that the traces can be slipped in position and removed in a moment's time. It is securely held in position and there is absolutely no danger of its coming loose.

They Liked Him.
One of our ministers preached to his sweltering congregation for only fifteen minutes Sunday morning, and its safe to say they are ready to stand by him now through thick and thin. It goes without saying that he was not preaching on the shortcomings of his hearers, or they would have been there yet. He was evidently talking on the credit side of the ledger.

Judge Sauley Announces.
Elsewhere in this issue of THE RECORD will be found the announcement of Judge M. C. Sauley for re-election as circuit judge. In a recent issue of this paper we dwelt at considerable length on the official conduct and excellent qualifications of Judge Sauley, so will not repeat here what was so recently said. Everybody in the county knows Judge Sauley, and his splendid services as judge speak for themselves.

Young Girls Run Grocery.
Danville has a unique commercial firm composed of two young ladies, who have purchased the retail grocery business of Mr. R. P. Stevens. The proprietors are Miss Mary Bengie, aged sixteen, who is the daughter of Mr. Rice Bengie, a liveryman, and Miss Mattie Coulter, a cousin of Miss Bengie. The latter is seventeen years of age and from Nicholasville. The firm is entirely on its own resources, and the young ladies have entire business charge.

The Place To Go.
Every business man should make it a point to take a few days off from work during the summer. A fellow can stay cooped up in his den until he becomes shop-worn, he thinks of nothing but business, and we have known some men, who had been pretty clever fellows, to get crabbed and as mean as the devil and think the world was resting on their shoulders. The thing to do is break away for a few days, go over to Crab Orchard Springs and get a change. The water will give you a good spring cleaning, the change of diet will build you up, you will get several good, cool nights sleep and come back to your treadmill with renewed vigor, know better how to treat people and have a lot of the moss rubbed off your back. Crab Orchard Springs is one of the most delightful places in the United States, and the rates are very reasonable, indeed. Go over and try this. You will have telephone service from the Springs office right into your place of business here at home.

Temperance Rally.
Rev. A. R. Moore, assisted by the W. C. T. U., will hold a temperance rally at Buckeye, next Saturday at three o'clock. All are cordially invited to be present. Come everybody.

The Pasteur Treatment.
Frank Lackey, the colored man bitten by the dog last week, left for Chicago to take the above treatment. While there is some doubt as to the dog being mad, yet it would have been a mistake to take chances on it. This is a wonderful treatment, and has made some remarkable cures. The treatment should be taken as soon as possible after being bitten, as there is danger in delay. Neither Mr. Gill or Lackey have returned, but reports say they are getting along nicely and reached the treatment in time to prevent serious results.

A Big Fish.
Mrs. Stella O'Neal Hubble writes to her many friends in Lancaster, a description of a big fish caught at Rockcastle Springs, in Rockcastle river. This was a cat fish, measuring 48 inches in length, 26 inches around the body, eight inches across the mouth, ten inches across the head, and weighing 60 pounds. It was caught by a hired man at the hotel. We had ten pounds of it baked for dinner, and it was delicious. Wish many of our Lancaster friends could have been here to have enjoyed it with us.

Happened In Lancaster.
Here is the latest going the rounds of newspaperdom. A donkey stepped into a store, and the owner approached the beast and asked: "What are you doing here? You know this is no place for a donkey." "I am here," said the donkey: "because I saw your advertisement on the fence that surrounds my pasture. I know you, too, must be a donkey, or you would place your advertisement in a newspaper where it would be read by people, not donkeys. Being lonesome today, I thought I would be neighborly and make a fraternal call."

How Lancaster Will Look.
Danville News:—Editor Landram of the Central Record is hot under the collar. In last week's issue of his paper he dwells at great length on Danville's prospects of getting an extension of the Southern Railway from Burgin to this city. He heads his article "Just Too Cute," and "Danville Friends Would Work a Rabbit's Foot But 'There's Many a Slip, etc.'" Probably Bro. Landram has cause to become excited, for if Danville succeeds in her efforts, his town will be made to look like a small part of thirty cents.

Mr. Currey Retires.
After many years of active business pursuits, Mr. Theodore Currey has sold his grocery store to Messrs. Theo. Currey, Jr., and R. L. Davidson, as was advertised in last issue of this paper. If the figures were given, they would doubtless show that Mr. Currey has sold more groceries than any man in Central Kentucky. He came to Lancaster from Harrodsburg, and for forty years has been in the grocery business. No man enjoys higher respect from the people than does he, nor is there a better man in any community. THE RECORD sincerely trusts that a few days rest will restore Mr. Currey to health and strength, for such men are needed in the community.

The Base Ball.
The Richmond Elks came down Friday and played a pretty game of ball with the local team. While the score was 11 to 4, in favor of Lancaster, yet the game was a hot one from start to finish. It is regretted that the boys came on the 4th, as half the population of the town had gone away to spend the day. Another cause for the small attendance was the excessive heat. The "grand stand" (the bare ground) was very uncomfortable for a hot day, and few people cared to sit in the broiling sun, with their knees jammed under their chin in order to see a ball game. The visitors were given as pleasant a reception as was possible, and the Lancaster people are loud in praising their gentlemanly deportment and good playing.

Mad Dog Scare.
For a few days there was much talk about the mad dog which bit several people in town and Mayor Kinnaird ordered that all dogs be taken up and kept chained for thirty days. While it is true that there is an occasional case of hydrophobia, yet nine times in ten the so-called "mad dog" has strayed from home, and every one who sees him takes a shot at him, or in some way scares him, and by the time the poor thing has traveled half a mile the cry "mad dog" has put every body on their metal and he is shot and beaten to death. Those who know what they are talking about say a mad dog will not approach any one, but on the other hand strikes a bee line for water. In most every case, a dog bites a person simply because the person is molesting the animal, and the poor thing is trying to protect itself. The ordinance or proclamation of the Mayor will have a good effect, however, and if all worthless canines were ordered killed, it would be a wise move. We will venture the assertion that there are one hundred dogs being harbored in Lancaster today on which no tax is paid.

New Firm.
Owing to my health failing me I have sold out my stock of goods to Theo. Currey, Jr., and R. L. Davidson, who, will continue the business at the old stand. I want to thank all of my old friends who have so liberally patronized me in the past, and ask a continuance of the same liberal share of their patronage for the new firm. July 1st, 1902. Respectfully, Theo. Currey, Sen.

The Carnival Contest.
Interest in the contest for Queen of the Elks Fair Carnival, at Richmond, is at a white heat. The Richmond boys are working like Turks, but Lancaster's fair nominee, Miss Bradley, is right up at the front of the race. Notwithstanding the fact that she has the field against her, the Lancaster boys believe she will win the Contest and be the Queen. It is impossible to come to see the people, so if you want to help swell the vote, voting up this office, and we will send you all the tickets you want. Votes are five cents each, and anybody can vote, whether they are Elks or not. The voting closes next Saturday night, at eleven o'clock.

When the vote was counted Monday, Miss Florrie Chenault was 1,000, Miss Bradley 600 and Miss Smith 368, the rest remaining about the same as last week.

You Can Judge From This.
We were disappointed in getting all the pictures for our write up of the recent cyclone, but the following gives so true an idea of the storm's peculiar and destructive work that we print it, late as it is. The tree is only a few feet from the house. The entire scene

and story was swept away, the first story and the tree being left without the slightest harm.

A Great Vocal Contest.
Will be held at Danville, on July 22, 1902. Experience, gained from other contests, has made it possible to assure the public that this will be in all respects one of the most pleasant events of the mid-summer. The program will not only be well filled, but, also have singers of recognized talent on the list. Three prizes, twenty, ten and five dollars in gold will be awarded to the successful contestants. The young ladies of the Baptist Sunday school will have charge.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Ia., "but two bottles of Foley's Kidney Cure effected a permanent cure." C C and J E Stormes.

WALLACETON.

(Received too late for last issue.)

C H Baker delivered to E L Woods a nice bunch of hogs at 6c.

Last Saturday evening the vehicle in which Wm Asher and Billy Fish were riding was blown over, but neither of the men was seriously hurt. Their jug was broken, however, and they lost all of their sulphur water.

At half past nine o'clock on the night of the 25th ult., this section was visited by a cyclone which left behind it a track of almost total destruction about a quarter of a mile in width. The barn of John Ponder was entirely destroyed, but neither of the horses killed. Next the residence, a two story log house in which were sleeping Mr Ponder, his wife and six children, and his aged father, was completely wrecked. A 14-year-old son and the aged father was so seriously wounded that they died in a few hours. Mr. Ponder had his collar bone broken and was considerably bruised otherwise. All of the others were hurt, some quite seriously, but not fatally.

The residence of J H Mitchell, a three-room boxed house, in which were Mr Mitchell, Jack Stephens, Billy Ballard and "Aunt Polly" Middleton, was literally hurled to pieces, not a part of it being left on the pillars. One of the sills was thrown into the creek 400 yards away. Neither of the occupants was seriously hurt. Jack Stephens, Billy Ballard and their bed landed in a pile. As soon as Billy could get a few words together he said: "Say Jack, for the Lord's sake, less go summers," and Jack didn't object.

Allen Weaver's house was next to be entirely destroyed. Mr. Weaver, wife and two daughters were in it, but got out of the wreck without being seriously injured. An unimportant, but remarkable fact is that in each of the wrecks the clocks were found uninjured, although nearly all of the furniture was damaged or entirely destroyed.

Just before dark on Saturday following, a hurricane came through, crossing the track of the cyclone near where Mr Mitchell's house formerly stood. The principal damage done by it, briefly stated is about as follows:—The home of Priscilla Branson partially destroyed but no one seriously hurt. The houses of Dan and George Gabbard, James Wells and Grider Wallace, all either removed from foundation or turned around so as to front road differently. (Rather aristocratic wind).

Robt. Gentry's two story frame house almost wrecked, kitchen blown clear away, one half of the remaining roof moved across the pike and the front side of house blown out. Occupants remained in the building and were uninjured. Lewis Botkins and contents blown away. He and family left and went to his father's just before.

J B Wallace's big barn unroofed and partly blown down, portico torn away from house and placed over his well, and the rest of the house severely shaken. No one hurt. Some doors or so barns were torn away in the vicinity, but so far as heard from no stock killed, save two hogs, 2 sheep, and chickens without number. More orchards, shade trees and fine

No False Claims.

The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim to it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. C. C. and J. E. Stormes.

young timber were destroyed than had been by all the storms combined for the last twenty-five years. Yet, considering the vast damage done to property, the bodily injury was so miraculously small, that even the most skeptical must confess that the Hand of Protection was as plainly visible throughout as was that of destruction, for which all should be grateful.

LOUIS LANDRAM.

Entered at the Post Office in Lancaster, Ky., as Second-Class Mail Matter.

Lancaster, Ky July 10 1902.

BRO. HARRY SOMMERS prints the following truthful lines in that good paper, the Elizabethtown News:

"The annual meeting of the Kentucky Press Association is always the occasion of slighting and unkind remarks on the part of a few newspaper men who either have not the time or inclination to attend these annual gatherings or else have grown too 'big,' in their own opinion, to associate with the country editor. Whatever short comings there are could be better rectified by the attendance of these critics than by their ill-natured snarls. Such men as Westover, Meacham, Lewis, Allen, Brown, Watkins, McCarty, Hart, Babbage, Howard and scores of other reputable newspaper men are regular attendants at the meetings of the K. P. A. and are as worthy to represent the craft in any capacity as those who annually get off their roasts. The interlopers are rarer now in the press meetings than ever before and the editor of this paper can speak from twenty-four years experience. Much more business is transacted than was accomplished a quarter of a century ago. As an instance we cite the passage of the general advertising law, which was the direct result of the last meeting of the K. P. A. There is another marked improvement in these annual re-unions: there is absolutely no drunkenness which so often in our earlier association with the press was the disgrace of the fraternity. We would again advise these critics to keep their pens off their brother workers and we cordially extend to them an invitation to the meeting at Owensboro this month.

ONE of the delightful events of the Press Association meeting in Owensboro on the 22nd will be an address by Col. W. C. P. Breckinridge. After urgent solicitation by the executive committee, the Colonel said he would make an address to the boys. This will be a treat, indeed. Some may sling slurs at Col. Breckinridge, but he has forgotten more than they will ever know. He is a man of brains, and his talk will be of great interest.

HARRY G. TANDY, an old newspaper man, has announced as a candidate for democratic nomination for Secretary of State. His many newspaper friends delight in telling their readers that Harry is a fine man, and one who will discharge the duties of the office faithfully and efficiently.

THE many friends of Col. W. P. Walton, of the Lexington Democrat, are glad to know that he is rapidly improving and will soon be well of the injuries received by falling down a flight of stairs in that city recently. Were he not a total abstainer, that fall would look a little suspicious.

THE usual number of Fourth of July accidents were reported, the urchin faring pretty hard all around. The average boy is as proud of the wounds received in this way as Roosevelt would be of one he "might have" received in whipping the Spaniards.

If Hero Hobson could not resist kissing the girls in other states, we don't see how he kept hands off when he saw the pretty girls at Lexington last week. Those in charge of the Hobson exhibit must have put a muzzle or nose bag on Richard.

A LEXINGTON paper says this year has been a "record breaker for the banks in that city." Yes, and the "investment" companies over there have been a "poor-man breaker" this year, too.

CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the blood all offensive matter, and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected.

S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.

Today, more than at any other time is there an incentive for men to practice good dairying. Consumption of first-class dairy products has more than kept pace with their production, so the field remains wide open for more continued improved work.

A Baltimore grocerman has recently compared the weight of paper with the food supplied to the purchaser. In a list of supplies costing about \$1.40 he found that the paper which was weighed with the provisions cost 14 cents.

A number of hog raisers have reported this spring that they have lost a number of young pigs through the cannibalistic tendencies of the mother sow. When the sow eats her young it is her method of notifying her owner that she has been neglected. The sow that has an abundance of green food and clean drinking water will rarely ever eat her young.

We are told by many breeders that the crop of pure bred pigs this season is much below an average one, as there was a smaller number of dams bred last season than formerly. This was no doubt due to the short corn crop of

and beautiful women are gathered together yearly and nature collects their delicate fragrance and essence of perfect perfume, "after of roses" and "perfect children." An essential oil for the reduction of women's fragrance is

MOTHER'S FRIEND.

It is a liniment for external use on the breast and over the region of the generative organs. With its careful use throughout the period of reduction, woman's figure will remain perfect. The seemingly crushed and dainty bud of maternity will mature into the blooming rose again. The extracted essence will be a perfect child born with the vigor, health, color and perfume of the mother rose. Its little rose face beside her, almost an exact reduction and counterpart of her own, will tell of the blooming curves that are still her own.

A Cattle Feeding Plan.

A dispatch from Chicago says plans that were first taken in consideration about a year ago have been developed in the last few months to the point where some of the great packing establishments in Chicago have begun experiments on what may prove a revolution of the cattle industry of the country, says the Inter Ocean.

The project involves the settlement of several hundred thousand acres of what is at present nearly valueless land in Northern and Northwestern Florida and Southern Alabama, the cultivation on a large scale of the cassava root, and its use in feeding cattle and hogs. If the plan develops as it is now in the minds of the leading packers, the Southern States will become the center of the cattle raising industry. It is stated that arrangements are now being made for the accommodation of a considerable number of cattle to be shipped from the stock yards here to Northern Florida to be fed on cassava root.

The result of the fattening process will be compared with similar work in the West, regarding which the conditions and cost are already definitely known. The result obtained will determine the future of the cassava experiment.

The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by R. E. McRoberts, druggist.

Mother Always Keep It Handy.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Poisoning The System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

High tides of grief carry us over the hidden bar.

It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons.
